

AUTOMOBILE NEWS AND GOSSIP

Three additional entries were received yesterday for the Four-leaf Clover Run to be held by the Automobile Club of Washington, May 15 to 18, bringing the total up to twelve. Those who nominated cars yesterday were Miller Brothers, who entered a Ford and a Velle, and Norman Bowles, who has put in a Warren Detroit.

Mr. Bowles asked that, instead of being given entry blank number 12, it be made 13, for, to quote him, "instead of believing that 13 is a hoodoo number, I think it an emblem of good luck."

C. R. Erickman, factory representative of the Detroit electric, is in the city as guest of Emerson & Orme, local representatives.

Saturday night the Automobile Club will open its clubhouse in Georgia avenue with a stag smoker. E. H. Johnson, chairman of the House committee, says that he has a number of surprises to spring in the way of entertainment at the opening. It is understood that as part of the programme he has arranged for a moving picture show and a vaudeville entertainment.

"You may have noticed the Stevens-Duryea, which is laying out the route for the Glidden tour, has not a sign on it to tell what make of car it is," said L. D. Mosher, district manager of the Stevens-Duryea Company, who is in the city as guest of the Zell Motor Car Company, local representatives. "To my mind this is conclusive evidence that the car was hired and not loaned, as some have claimed. For if it were a loaned machine we most certainly would have it plastered with signs to advertise the make."

G. E. Matson, manager of the Philadelphia branch of the Zell Motor Car Company, dropped into Washington yesterday morning and spent a few hours as guest of Emerson & Orme, local agents for the machine.

"I would advise any prospective purchaser of a motor truck to consult with his wagon builder and get the wagon builder's advice as to the stability of the structural features employed," says Brook Nyce, in charge of the truck department of the Buick Motor Company. "He has by long experience learned when a wagon is properly built to withstand the racket to which it is subjected."

According to H. B. Leary, Jr., who sells the Hudson, when a man purchases an automobile he buys a number of things that go to make up the car. He buys the labor that goes into the car, after first purchasing the raw material, and last, but not least, he buys an overhauled charge. Just how much that is he may make a rather shrewd guess about only after examining into the methods of the company producing the car.
